

PATVIN® Inventors' Compensation Module – flexible processes for your requirements

PATVIN® Inventors' Compensation Module – quick and efficient

Use the new PATVIN inventors' compensation module to switch smoothly to lump-sum inventors' compensation (see draft). It is also possible to administer traditional compensation methods in parallel.

Added value

The PATVIN inventors' compensation module can handle various compensation methods and individual solutions at the same time.

- Product portfolio management as a result of structured overviews of the inventions used
- Interlocks with your employee, product and book entry systems – cuts costs and improves process quality
- Flexible compensation modes

Technology

The technical features of the inventors' compensation module are: performance, future-oriented architecture and high availability.

- Oracle Application Server 9i
- Oracle RDBMS 8.1.7
- Internet Explorer or Netscape Navigator as Intranet Clients

Service

The present draft envisages lump-sum compensation. It is of course also possible to use sales as a basis for compensation:

- Lump-sum compensation, manufacturing costs, sales and royalty income
- Formula-based – individual calculation methods can be employed
- Defined interfaces for data exchange

Advantages

The PATVIN inventors' compensation module is an efficient aid for compensation payments.

- ✓ Quick and efficient calculation of compensation
- ✓ Takes account of all established compensation methods
- ✓ Automatic production of letters to inventors
- ✓ Simulation runs provide a cost preview as an aid to planning reliability
- ✓ Haggles-free support for your administration processes
- ✓ As a result of the flexible formula design, one-off bonuses (e.g., on patent grant) can be incorporated
- ✓ Data can be easily copied to MS Word or exported to Excel

Compensation/factors

PF-share	30.00 %	Compensation	730.79 EUR
Quota of payment	35.00 %	Value of invention	17,754.90 EUR
Inventors share	70.00 %	Accumulation/factor	7,398,300.00 EUR 90.00 %
Factor of share	21.00 %
