

PATVIN – IP administration with integrated regulations

Your job is protecting innovations – PATVIN gives you the elbowroom you need.

Technology

The technical features of PATVIN are: performance, future-oriented architecture and high availability.

- Oracle Application Server 9i
- Oracle RDBMS 8.1.7
- Internet Explorer or Netscape Navigator as Intranet Clients

Added value

PATVIN provides the relevant information – wherever it is needed.

- Information is quickly available, thus simplifying business processes.
- Decisions can be taken more simply and more quickly.
- Processing times are cut and expenditure reduced to a minimum.
- The company-wide exchange of information is made possible by PATVIN.

Service

Our many years of experience in the field of industrial property protection have shown us how important an integrated approach is.

- Our specialists are partners who, in addition to their IT expertise, also have a detailed knowledge of industrial IP protection.
- We provide comprehensive support and help you to find solutions for your IP protection problems: inventors' compensation, license or trademark administration – give us a call!
- Our experts, in close cooperation with our clients, always keep forms, and deadline and fee regulations in PATVIN up to date.

Reference

The BASF Group places its trust in PATVIN. Worldwide, the company administers 110,000* patent rights. At the company's biggest site, Ludwigshafen, about 150 patent specialists work with our product on the Internet.

Advantages

The goal of PATVIN is to support your individual administration processes and to take routine work off your hands

- ✓ PATVIN supports all national and international application procedures.
- ✓ Forms, due dates and fees are created automatically.
- ✓ PATVIN comes with all the necessary forms, fee and due date regulations.
- ✓ Deadlines and due dates are monitored centrally, thus avoiding time pressures.
- ✓ Refined safety technology protects your data against unauthorized access
- ✓ Documents, letters and agreements can be incorporated in PATVIN. As a result, you have at hand all the information you need.
- ✓ Integrated interfaces with patent offices increase productivity, e.g., file inspections via *epoline®* or e-filing with *PCT-Easy®*.
- ✓ Data from PATVIN can easily be copied to MS Word or exported to Excel.
- ✓ An intuitive query module creates individual overview lists and portfolio analyses.
- ✓ As PATVIN can forecast fees it is an ideal controlling instrument.
- ✓ PATVIN adapts to your administration processes and smoothly integrates into your structures.
